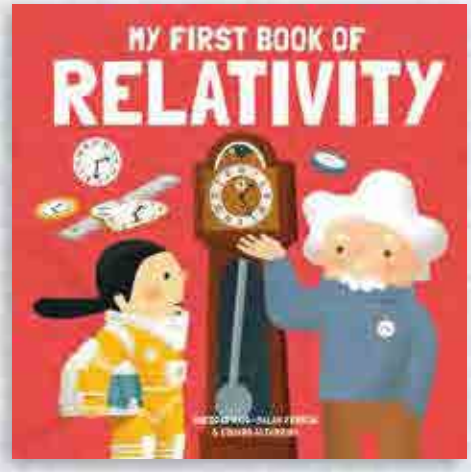
250+ FASCINATING FACTS IN EASY-TO-UNDERSTAND INFOGRAPHICS



My First Book of Relativity

Sheddad Kaid-Salah Ferrón & Eduard Altarriba

It's never too early to start exploring big ideas. This companion volume to *My First Book of Quantum Physics* introduces complex science to children through bright illustrations and amusing text. Einstein's theory of relativity is one of the cornerstones of modern physics but it requires a total rethink of our notions of time and space. Strange things happen in a relative universe: length and time are not fixed and if you move at high speed, time slows down, space contracts and weight increases.

My First Book of Quantum Physics

Sheddad Kaid-Salah Ferrón & Eduard Altarriba

The world of quantum physics is an amazing place, where quantum particles can do weird and wonderful things, acting totally unlike the objects we experience in day-to-day life. How can atoms exist in two places at once? And just how can a cat be dead and alive at the same time? Find out more with this entertaining illustrated guide to the fascinating, mysterious world of quantum physics.

Understanding Energy

Eduard Altarriba & Verónica Sanz

Creating and harnessing energy is a fundamental part of enabling life to exist and thrive on Earth. It comes in a vast array of different forms – creating heat and steam through fire, capturing the power of the wind to turn the blades of a wind turbine, harnessing the power of moving water to generate electricity in a hydroelectric power station. In this fascinating new book, children can explore the many different principles of energy production with the use of beautiful, dynamic illustrations.

Discovering Architecture

Eduard Altarriba & Berta Bardí i Milà

If you want to know more about the buildings around you, this entertaining illustrated guide is a perfect introduction to architecture around the world. From the mud huts of ancient history to today's towering edifices, you can explore iconic buildings and find out more about the people who created them. Once you've learned how everything from the Parthenon to the Burj Khalifa came into being, you'll be ready to design the buildings of the future.

Plant, Sow, Make & Grow

Mud-tastic Activities for Budding Gardeners

Esther Coombs

Get little gardeners growing and learning with this beautifully illustrated book, packed with information and crafty stuff to do. Help them to discover that it often is as simple as having some seeds, a patch of soil or a container and having a go. With sections based on the cycle of the seasons, the pages are packed with ideas of what to grow, how to sow seeds and useful harvesting information. Also included are tips about what wildlife you may see, raiding your recycling box to make some useful gardening accessories and other decorative craft activities.

Be Your Best Self

Danielle Brown & Nathan Kai

What are your BIG dreams? Maybe you'd like to be a scientist, an award-winning journalist or swim in the Olympic Games. We all have different dreams, but whatever it is that you want to do, the skills you'll need to achieve your dreams are the same. Written by Nathan Kai, an eight-year-old member of MENSA® and Danielle Brown MBE, a double Paralympic gold medallist and five-time World Champion in archery, this exciting new book helps children and young people to practise the core skills they need to achieve their goals.

The Magical Under the Sea Activity Book

Mia Underwood

This new, exciting activity book from Scandinavian style illustrator Mia Underwood, is packed with aquatic-themed activities including mazes, paper-crafting activities and scenes to create using a plethora of both real-life and fictitious sea life characters. This book also touches on environmental issues, highlighting how important it is for us to look after all things aquatic.

The Secret Woodland Activity Book

Mia Underwood

Children can enjoy the magic of the outdoors wherever they are with this beautifully illustrated and immersive Scandinavian-style woodland-themed activity book. Alongside mazes, paper-craft activities, colouring in, recipes and treasure maps, children can use the four pages of stickers to bring scenes to life. Some of the characters in the woodland activity book include magical birds, woodland sprites and fairies as well as other more conventional creatures such as bears, owls and foxes.
